

AP Statistics Summer Assignment

Statistic is the study of collecting, organizing, analyzing, and interpreting numerical information from data. This course is a rigorous, yearlong investigation into multiple broad subject areas.

As a result, time management and keeping up with assignments is very important.

I would like you to use Khan Academy to explore some of the main ideas of chapter 1.

Open AP Statistics class on Khan Academy and complete the following topics:

- Analyzing Categorical Data
- Displaying and describing quantitative data
- Summarizing Quantitative Data

The Summer Assignment will be graded!!
