INTERNATIONAL EDUCATION/GLOBAL FOCUS

Central to the thematic design of all Global Focus programs is the idea that language and culture are interconnected. As such, this program provides students with a school-day embedded, interdisciplinary and participatory approach that integrates the study of language, literature, history, people, and the arts to develop an understanding of intercultural relations. The program encourages communicative competency and the appropriate interpersonal/intercultural skills.

Mission: Through the use of innovative teaching strategies in a culturally diverse environment, students will have access to technology, participate in internships, and will develop a valuable skill to become responsible global citizens.
